Reboletti Named to Government Reform, Spending Reduction Task Force

Addison, IL ... State Representative Dennis Reboletti (R-Elmhurst) was recently named to the newly created bi-partisan Task Force on Government Reform and Spending Reductions.

“It is quite obvious that Illinois is in serious need of reform with a governor behind bars and another one indicted along with others who have gone to prison for unethical practices. The status quo in Springfield is not acceptable and I hope real changes and reform will come out of this task force,” said Reboletti.

The committee includes 38 representatives who will meet to draft legislation to reform state government

To assist Reboletti as he serves on this task force, he encourages residents to voice their concerns and reform ideas by visiting ReinventIllinois.com, which is a website created by the House Republican Caucus.

“Feedback from you is vital as I head back down to Springfield in October for veto session and prepare for the Task Force on Government Reform and Spending Reductions,” said Reboletti.

Residents can also provide reform suggestions by calling the district office at (630) 530-2730 or by e-mailing Rep. Reboletti at dennisreboletti@sbcglobal.net.
